A New Comedy Film

The Clown's Adventures

Length, 465 Feet **Price, $51.15**

If you look for a good comedy Film, here it is. We see the clown preparing for a performance. Tired from the day's work, he lies down to take a rest. But there is no rest for the weary.

Scene after scene passes before our eyes, funny, drolly, comic, mysterious and astounding. The scenes pass so quickly that we hardly have time to realize one before another surprises us. The Film is full of life, clever and laughable.

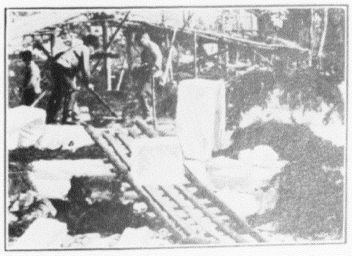
HOW TO KEEP COOL
OR
OUR ICE SUPPLY.

LENGTH, 310 FEET. **PRICE, 34.10.**

Never before a picture like this has been taken. Whoever stops to think where all the ice comes from which is used throughout the country? Our picture opens by showing large ice fields. The ice is sawn in large cubes. It then is dragged out of the sea by grappling irons and is taken to the chutes down which it rushes. It is a beautiful sight to see the big ice blocks slide down at a speed of 80 miles an hour.



At the bottom of the chute the runners are turned up at a sharp angle. The descending blocks rush up this incline. They are then caught and turned to the ship which is to bring them to their destination.

The Film ends with a beautiful scene in a cafe showing how the ice is used for ice water and ice cream.

The Film is excellent in photography and unique in subject.
